Dermagenix Solutions Visibly Moist Dry Skin

System instantly reprograms your skin's ability to hold moisture.

Why is my skin so dry?

Dry skin is due to three related skin conditions: lack of water in cells and between cell layers, damage to your skin's natural moisture barrier and overactive cell turnover.

If you have dry skin, you may have:

- Scaling, flaking or cracking skin
- Skin that's easily irritated
- An uncomfortably tight feeling, especially after cleansing
- Surface lines & wrinkles triggered by dehydration
- Redness

How can I reprogram my dry, dehydrated skin?

Dermagenix Visibly Moist works 5 ways to correct your dry skin.

1. Protects your natural moisture barrier during cleansing or exposure to climate extremes and polluting environments.
2. Drenches dehydrated cells with revitalizing moisture.
3. Deposits a cushion of moisture between cells - the area where water tends to evaporate - so your skin stays moist and supple *up to 20 hours*.
4. Delivers lubricious, restorative plant oils for immediate comfort.
5. Reprograms underlying cells to naturally repair your skin's moisture barrier.

What results will I see and feel?

- Soft, supple comfortable skin *within minutes*
- Skin that feels *instantly* soothed and hydrated
- A more radiant, smoother, softer look
- Fine, dry lines eliminated
- Revitalized, younger-looking skin
